7. Intermission
8. Video - Signature songs “Where were you when”
9. Quotable; Phrasing, Bridging, Breathing, Imaging
10. Video - Signature songs Credits and finale

Crooner Greg Wilder: is a foremost interpreter of the Big Band crooners from the 40’s, 50’s and 60’s. He grew up on New York’s Lower East Side and cut his teeth on Big Band music; always being put in the spotlight by his family and friends.

For Greg, singing has been his passion since he was a kid and has always felt a deep connection to Frank Sinatra. He likes the same music and Greg’s folks come from the same town in Sicily as the Sinatra family, Agrigento. Greg said one of his earliest movie recollections was a biopic of Jerome Kern when Sinatra sang "Ol' Man River" in "Till the Clouds Roll by." Totally connected to the music, he then took that connection to his first talent show at P.S. 126 in Astoria where he won First Prize for singing "Ol' Man River."

Greg has performed in Canada, New Orleans, The Catskills, Las Vegas, New York’s Plaza Hotel, New York Marriott Marquis Times Square, Rock Center Hotel, and the Rainbow Room! It’s True - If you can make it here, you can make it anywhere!

Greg is also a professor at Five Towns College where he works in the Vocal Workshop.

Wilder is continuing his mostly Sinatra Concerts with the Virgil Scott Orchestra in Theatres and Parks throughout New York. Audiences find this crooner to have the smooth voice of the young Sinatra, the heart rendering feelings of the Saloon Singer who can swing a tune as well. Recently, a fan came up to Greg and said "When you sing swing or ballad, I sense that you become the song." Thus, the his new CD is aptly titled "The Song is You".

Being versatile, Greg also performs as the "Crooning DJ" He would be happy to send a CD of "Music Minus One" Show - Minus One, that is until he joins in - then it's "SHOW TIME."

Greg performs using sound track arrangements by Nelson Riddle, Billy May, Don Costa, Basie, Q. Jones, and songs by Porter, Gershwin, Mercer, and Arlen. There is always continuous music on state-of-the-art equipment, and it's never too loud, whether it's low key or high energy music.
